The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

As regards filing date, there needs to be copending to have priority to the parent. Current B1/B2 datasheet indicates this to be continuation of a divisional of 09/247,953, filed 2/11/99, which is a CIP of 08/668,616 of ~~action~~ filing date 6/7/96 or 6/7/94. Please consider in this regard:

An examination of this application reveals that applicant is unfamiliar with patent prosecution procedure. While an inventor may prosecute the application, lack of skill in this field usually acts as a liability in affording the maximum protection for the invention disclosed. Applicant is advised to secure the services of a registered patent attorney or agent to prosecute the application, since the value of a patent is largely dependent upon skilled preparation and prosecution. The Office cannot aid in selecting an attorney or agent.

A listing of registered patent attorneys and agents is available on the USPTO Internet web site <http://www.uspto.gov> in the Site Index under "Attorney and Agent Roster." Applicants may also obtain a list of registered patent attorneys and agents located in their area by writing to the Mail Stop OED, Director of the U. S. Patent and Trademark Office, PO Box 1450, Alexandria, VA 22313-1450

Please provide a date for reference.

Claims 3-5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 1615

Terminology, absent specifying particular polymers and substrates, is unclear. "Compound" is normally a single chemical entity; here we have a polymer –based – seen as polymer with any additional chemical or physical materials or compounds.

Claims 1, 3-5 are rejected under 35 U.S.C. 102(b) as being anticipated by Alexandria et al 5135744.

The rejection of record is maintained. Claim 3 requires only a plastic "compound" of a polymer-based substrate. We see plastic as a polymer, and interpret "compound" as the same as composition, since the plastic compound has a polymer based substrate – thus of multi molecular components; compound being used in the sense of compounding. Alexander provides molten plastic compounds of polymer-based substrates, EVA, (Col. 5, top) with uniformly distributed water-soluble disagreeable taste (bittering agent – col. 3, line 55), Bitrex, at 0.001-0.03% (col. 10, lines 51-53). However this is a representative example – up to 5% of adverse agents are permitted (col. 3, (h) and line 7).

Claims 3-5 are rejected under 35 U.S.C. 102(b) as being anticipated by Miller - 5632999.

The rejection of record is maintained.

Applicant's arguments filed on 3/12/05 have been fully considered but they are not persuasive. Applicant argues Miller is sustained release – however, claimed is a composition, we see Miller as cumulative reference, but in fact meeting the composition regardless of intended use-here, as "permanent" deterrent Miller as release agent over the life of the plastic compound.

Art Unit: 1615

As to Alexander, again, the composition is met, with clear statements that up to 5% adverse exemplified by Bitrex as a representative example and %, only Bitrex, as the adverse is shown, not a laundry list.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
